PERSONAL STATEMENT

I am fourth year university student studying towards a Bachelor of Computer and Information Sciences majoring in Cyber and Network Security and minoring in software development at Auckland University of Technology. I am a self-motivated student seeking for an organization where I can combine my academic knowledge of the Computer Sciences with the practical application of my skills and experiences. I am a driven person, with a great attitude and have the ability to pick up skills quickly. I relish the challenge to be part of a busy team where I can positively contribute towards the team's success while developing my knowledge further.
